A SPALDING Swimming Suit will make you realize how good looking you really are

There isn't much area in a swimming suit. But what there is is mighty important. ¶ Like on the end of your nose, an inch too much here, or too little there, makes a lot of difference. ¶ Remember that Spalding has designed and made the equipment of expert athletes for over fifty years. Naturally, Spalding designers know just the touches that give a suit the professional air. ¶ That's why a Spalding Suit will make you realize how good-looking you really are. You'll look like a *swimmer*—and that's the secret of looking well on the beach! ¶ Moreover your Spalding Suit will give you the freedom of action, and long wear, that a professional swimmer demands. ¶ Wear and water won't dim the colors, or take the life out of the special yarn. With reasonable care your suit will look as well at the end of the season as before the first plunge. That's a promise! ¶ Spalding brings you new designs, and scores of new color combinations. One or two-piece suits. Elastic-knit throughout, or flannel trunks, if you prefer. Speed suits cut low under the arms. You'll look made to order.

A 24-page booklet—illustrated with photographs

It's free. Send for it. It shows Spalding Swimming Suits for every member of the family.
