CHULA VISTA

(Beautiful View)

Lying along the Bay, about seven miles south of San Diego, is the attractive suburb of Chula Vista. It commands a fine view of the waters of the Pacific, Coronado, Point Loma and the City of San Diego; while to the south the landscape is filled with glimpses of citrus orchards, with vistas of the distant Mexican mountains.

The climate of Chula Vista is the same as that of San Diego and the entire bay region, the average annual temperature being about 61 degrees.

The soil is adapted to the production of lemons, oranges, grape fruit, peaches, plums of all kinds, almonds, apples, pears, berries and vegetables, but the most popular crop is the lemon, as climatic conditions are particularly favorable to its cultivation. Water is supplied from Sweetwater Reservoir at the annual rate of $7.00 per acre. This entitles owners of land to 350,000 gallons per acre yearly, which is ample for any orchard. This suburb enjoys good electric transportation facilities which, together with its nearness to the city, makes it a desirable residential section for those desiring to combine city and country life. It has many educational and social advantages, including modern schools, churches and clubs.

CORONADO

Coronado Beach, located just across the bay from San Diego is a city and resort center combined, harboring no manufacturing or big commercial plants but a city of wonderfully attractive homes, four fine parks, modern business blocks, fine churches and schools. The present population is about 6000.

The famous Hotel del Coronado, open all year, and attracting world travelers from January to December, is located on the ocean side of Coronado. Situated on the strip of land between bay and ocean is the Summer resort of 600 palm tent houses and palm cottages, Coronado Tent City. This resort is open from June to September. Entertainment features include bay and surf bathing, dancing, free daily concerts, aqua-planing and all other beach sports including a great variety of mechanical amusement concessions. Tents are rented by the day, week or month with or without housekeeping privileges.

LA MESA

"San Diego's Scenic Suburb"

The present population of La Mesa is 2,000. It is a live community, and one that is steadily growing. New residents are attracted by the exceptional advantages of the place, its ideal climate, its up-to-date improvements and its charming location. It is eleven miles from San Diego, on the San Diego and Arizona Railway. It Is the highest station on that line, the elevation being from 500 to 800 feet.

La Mesa is situated along the small mountains or foothills. It has a number of level blocks, in which the business portion of the town is situated. Also, there are plenty of level residence lots for those desiring such, while the remainder of the townsite is made up of knolls and hill sides, affording desirable locations for homes, with views of mountain and valley. La Mesa has seven miles of cement sidewalks; eight and one-half miles of curbing; pressure water piped to each residence, fine spring water supplies the downtown district; four churches, fine graded school, fully equipped for manual training and domestic science and housed in enlarged new building; telephone exchange; bank; weekly newspaper; gas and electricity; and modern stores and shops. The children of La Mesa have full advantages of the Grossmont union high school.

An evidence of the progressive spirit of this community is the recently established La Mesa country club which has laid out 73 acres in a nine-hole golf course, with modern clubhouse. A city playground with cement tenuis courts and swimming pool add attractive features. La Mesa has a branch of the San Diego Chamber of Commerce.

NATIONAL CITY

Located adjoining San Diego on the south along the eastern shore of the bay of San Diego, National City occupies a beautiful and healthful site that in its present state of development is attractive alike to the suburban homeseeker, the investor and the manufacturer. The present population of National City is 6,825.

National City is only twenty minutes ride from the business center of San Diego on the San Diego electric line. Water supply for this city is conserved by the Sweetwater Dam. The capacity of the reservoir is 11,542,000,000 gallons. Mountain water from this reservoir is delivered under pressure in all parts of the city. The irrigation rates are very low. The city streets are well lighted.

Excellent high and grammar schools are found here; the public library is unusually well selected and occupies a $10,000 building; churches of six different denominations own their own houses of worship. Nowhere can better suburban home conditions be found.

OCEANSIDE

Known As the "Carnation City"
"Where Life is Worth Living"

Located on the Coast 40 miles north of San Diego and 90 miles south of Los Angeles. Is an incorporated City of the Sixth Class, containing a population of about 2,300 inhabitants.

Situated on the Main Line of the Atchison, Topeka & Santa Fe Ry., the terminus of the Escondido, Fallbrook and San Luis Rey Branch lines.

The City owns a fine Water System, water for domestic purposes and for irrigation being sold as low as .05c per 1,000 gallons, the cheapest water for domestic purposes in the State.

Finest and safest beach for bathing on the whole coast of California. In the history of the town, no life has been lost from surf bathing.

Has a modern sewer system covering 80 blocks.

Electric lights, fishing pier, etc.

RAMONA

In the Golden Valley of Little Ranches

The town of Ramona lies in the central eastern part of San Diego county, at an elevation of 1440 feet, in the Santa Maria valley. This farming section extends a distance of about nine miles from northeast to southwest, with an average width of about three miles and a slope toward the west of about fifteen feet to the mile. It is surrounded by rugged mountains, except on the extreme eastern side where a chain of very low rolling hills separates it from Goose valley, which, topographically, forms the northeastern part of the Santa Maria valley. The valley floor is composed of friable gravelly and sandy loams, which in spots are deep, but lacking in humus. Outcroppings of granite occur, breaking the level hay and grain areas on the valley floor.

In addition to hotels, restaurants, weekly newspaper, union grammar and high school, the latter being of concrete construction, Ramona possesses general merchandise, grocery, hardware stores and lumber yard. A town hall for fraternal and social gatherings, and Friends and Congregational churches are prominent. Motor trucks handle the freight from this district. Auto passenger service, with round trips daily between Julian and San Diego passing through Ramona, furnishes transportation. The town has two garages, machine shop and vulcanizing plant.

THE CITY DIRECTORY is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The CLASSIFIED LISTS in the Business Directory form the best Buyer's Guide on earth. A modern method of getting what you want.

ATTORNEY'S ATTENTION

We Search Directories

Our Directory Research Department makes searches throughout California and United States Directories for lost and missing people and defendants in court actions.

We maintain the most complete Library of City, County and State Directories West of Chicago.

Our Library of California Directories represents more than 715 Cities, Towns and Rural Routes.
